

# NEW SINGLE: LIGHTS OUT

In a world where conformity reigns supreme, individuals are lured into an artificial paradise, unknowingly manipulated by unseen forces. Once cherished positions of leadership become fraught with danger, and courage withers in the face of dissent. The primal Lizard Brain awakens, urging us to succumb to our most basic instincts and desires, as whispers of temptation reverberate, and the once-proud soul is swallowed by infamy. Amidst the chaos, a defiant cry emerges from the shadows, questioning who truly holds the reins and whether we can reclaim control.

A fierce instrumental interlude mirrors the internal battle waged within each soul between primal instincts and rationality. The echoes of resistance persist, but the question of control remains unanswered. The eternal dance between darkness and light, primal, and rational, continues as we grapple with the age-old question: who is truly in control?

Exploding onto the London music scene with unparalleled vigor, The Breakdown is a sensational melodic rock band that brilliantly fuses iconic British influences with cutting-edge modern rock elements. Reunited by serendipity, this extraordinary quartet triumphed over adversity during the nationwide lockdown, unleashing their critically acclaimed, mesmerizing debut album, 'Open the Barricades.' Now, The Breakdown is set to dazzle audiences with their electrifying live performances and an unstoppable wave of exhilarating new material slated for release in 2023. Don't miss your chance to witness the sheer power and unparalleled passion that makes The Breakdown a true tour de force in the realm of rock music.
