

# When it comes to things like love

The future's dead  
It died a long, long time ago  
And what remains  
I won't pine  
I think I'm better off alone

It's all beyond me  
It goes over my head  
It's all beyond me  
It goes over my head

When it comes to things like love  
I leave that for better men  
When it comes to things like love  
I'd rather gouge my eyes out

When it comes to things like love  
I leave that for better men  
When it comes to things like love  
When it comes to things like

The past is gone  
But in my heart, it still carries on  
And what remains my mind's eye  
I only hope forever long

See it's all beyond me  
It goes over my head  
It's all beyond me  
It goes over my head

When it comes to things like love  
I leave that for better men  
When it comes to things like love  
I'd rather gouge my eyes out

When it comes to things like love  
I leave that for better men  
When it comes to things like love  
When it comes to things like

It's in his nature  
It's in her vibe  
I can't deny  
A vibrant passion  
What if I told you, it's all a lie

When it comes to things like love  
I leave that for better men  
When it comes to things like love  
I'd rather gauge my eyes out

When it comes to things like love  
I leave that for better men  
When it comes to things like love  
When it comes to things like
